

## WHAT IS THE RISING STARS SERIES?

The Rising Stars Series is a collection of classic novels that are annotated with chapter descriptions and word definitions to the challenging but useful words therein. Thus each Rising Stars book is an all-in one combination of **Novel, Cliff's Notes, and Thesaurus.**

The Rising Stars Series is one of the most effective ways to increase students' vocabulary AND absorb great literature for school or for pleasure. Each novel is annotated with succinct definitions to every challenging word that appears on the SAT. The annotations are **right there**— on the same page as the highlighted word – no flipping back and forth to indexes.

The series improves every year, not only with new annotated novels, but with additions to existing novels' databank as the SAT invokes new words into its tested lexicon. The SAT publishes four tests each year. Rising Stars takes the words for every test, and adds them to its vocabulary data bank. Thus, the Rising Stars Series will help the serious student throughout his or her academic career via software purchases or downloaded upgrades.

Every registered Rising Stars purchaser has access to the Rising Stars vocabulary data bank. Rising Stars is affiliated with Ivy Bound Test Prep, a private company that tracks all the published words on the SAT and helps its clients study for the Math, Reading, and Writing portions of the SAT. **Your registered purchase of this book allows you to access this database for the upcoming academic year at no extra charge.**

The rewards for academic excellence are higher than ever, but so too are the pressures for high school and university students to be among the top performers.

### First Rising Stars Annotated Novels:

The first annotated novels in the Rising Stars Series are
